# INSIDER

## Join the WOW!house party

With 18 distinctive room schemes devised by top designers, this immersive installation at Design Centre, Chelsea Harbour is sure to provide a wealth of interiors inspiration

Following the success of last year's inaugural WOW!house, a new cohort of designers is transforming the Design Avenue at Design Centre, Chelsea Harbour, SW10, into a lateral showhouse. Of the 18 participating interior design studios, 12 have teamed up with a resident Design Centre brand on the decoration of a particular room. Milan-based Nicolò Castellini Baldissera has designed a drawing room in collaboration with C&C Milano (as seen in the sketch above), with its fabrics used on the walls, armchairs and sofa, and its leather on a desk, a bespoke wallpaper for the ceiling and a bespoke carpet. Also involved is *House & Garden* Top 100 design studio Waldo Works, which is collaborating with wallpaper and fabric house de Gournay on an inviting morning room, as well as London-based interior designer Henry Prideaux, who has created a kitchen alongside specialist company Martin Moore. An exciting addition this year is the Legend Room, which will be devised by industry icon Nicky Haslam with Colette van den Thillart. *WOW!house is at Design Centre, Chelsea Harbour, SW10, June 5-July 6, Monday-Saturday 10am-6pm; standard tickets cost £20.
